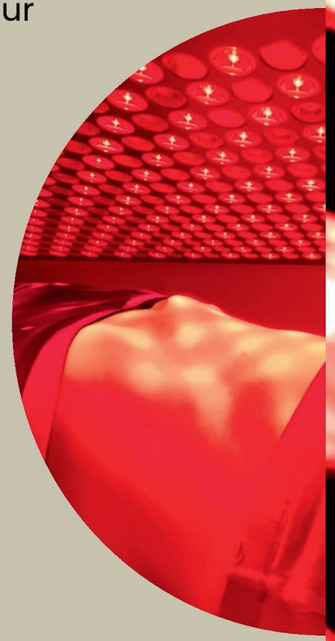
Support for Active Professionals

Whether you're on your feet all day, lifting patients, typing for hours, or working long shifts - your body is your most important tool.

Over time, repetitive strain, muscle fatigue, & chronic pain can make even simple tasks harder.

MedWave™ Narrow Light Technology™ helps restore comfort, mobility, and balance so you can keep doing your work - and feel good doing it.



"Photobiomodulation significantly **improved recovery and reduced pain intensity** in repetitive-use injuries."

— J Biophotonics, 2023

Light That Heals From Within

MedWave™ devices use two evidence-based wavelengths:

- **635 nm Red Light** – energizes skin and muscle cells, supporting circulation and tissue repair.
- **810 nm Infrared Light** – penetrates deeper, calming inflammation and helping nerves and joints recover.

Together they:

- **Boost cellular energy** (ATP)
- **Reduce oxidative stress**
- **Increase oxygen flow & micro-circulation**
- **Support faster recovery after strain or injury.**

"Dual-wavelength PBM reduces pain and accelerates tissue regeneration without pharmacological risk."

— Clinical Laser Therapy Journal, 2023

MedWave™

SAHPRA South African Health Products Regulatory Authority APPROVED

STAY STRONG. STAY HEALTHY. STAY AT WORK.

Introducing our Revolutionary Narrow Light Technology™

Narrow Light Technology™ helps relieve pain, reduce inflammation, and speed recovery - safely, gently, and without downtime.

Drug-free | Non-invasive | Clinically validated

DURBAN NEUROLASER CLINIC™ HEALTHCARE THROUGH TECHNOLOGY

Ideal for Occupational Health & Wellness Programs

Used by clinics & corporate health providers to help employees manage:

- Neck, shoulder, and back pain
- Carpal tunnel and tendonitis
- Sciatica and nerve irritation
- Chronic muscle fatigue
- Post-surgical or rehabilitation recovery

SAFE FOR:

Nurses, factory workers, office professionals, and anyone whose work puts physical strain on the body.

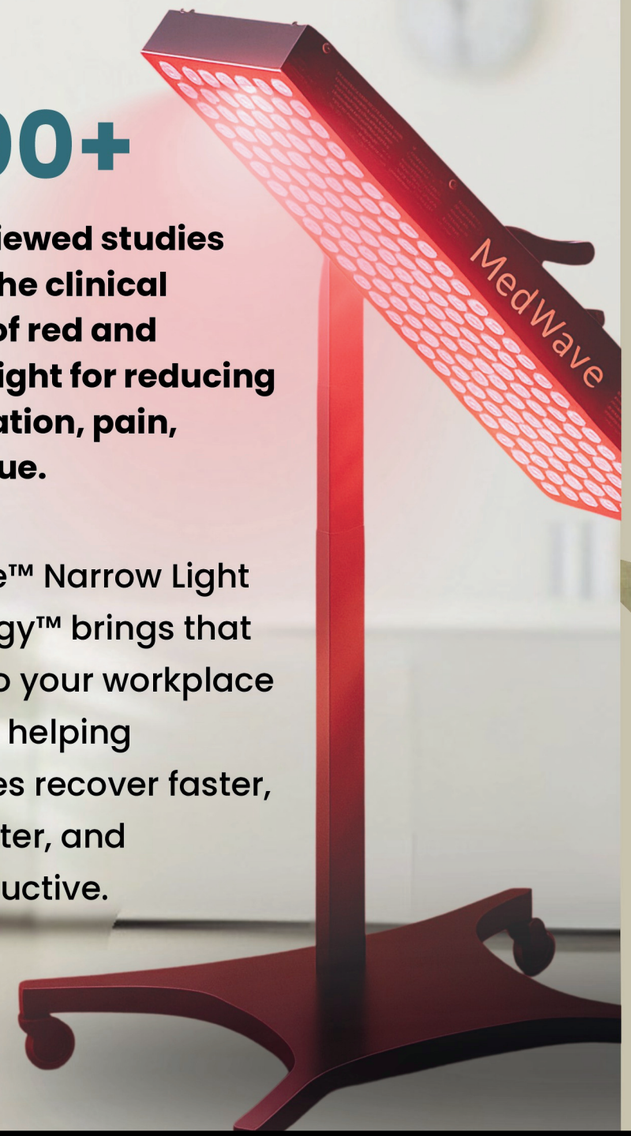
MedWave™

Radiant Skin Backed by Science



1,700+

peer-reviewed studies confirm the clinical benefits of red and infrared light for reducing inflammation, pain, and fatigue.

MedWave™ Narrow Light Technology™ brings that science to your workplace or clinic - helping employees recover faster, move better, and stay productive.

FEEL THE DIFFERENCE:

- RELIEF FROM STIFFNESS & SORENESS
- FASTER RECOVERY AFTER LONG SHIFTS OR PHYSICAL WORK
- BETTER FLEXIBILITY AND MOBILITY
- IMPROVED BLOOD FLOW AND ENERGY
- RELAXATION AND STRESS REDUCTION

Sessions are comfortable, warm, and quick — typically 10-20 minutes — and require no downtime.
